My analysis of the fohe slack and survey data

Users' activity

The total number of the users in the data that we have is 1784 while 857 users answered the survey (48%) .

2. 207 of the 1784 users in our data answered the survey but are not active in the slack channel , Which means that 1577 out of the 1784 users are in the fohe slack channel.

3. Out of the 1577 users that are in the slack channel only 650 users answered the survey which is 41% of the total users in slack .

cartography

1. If we look at the bigger picture, we can see that from the FOHE users who answered the survey 722 of them were from the USA and 135 users are from the rest of the world .

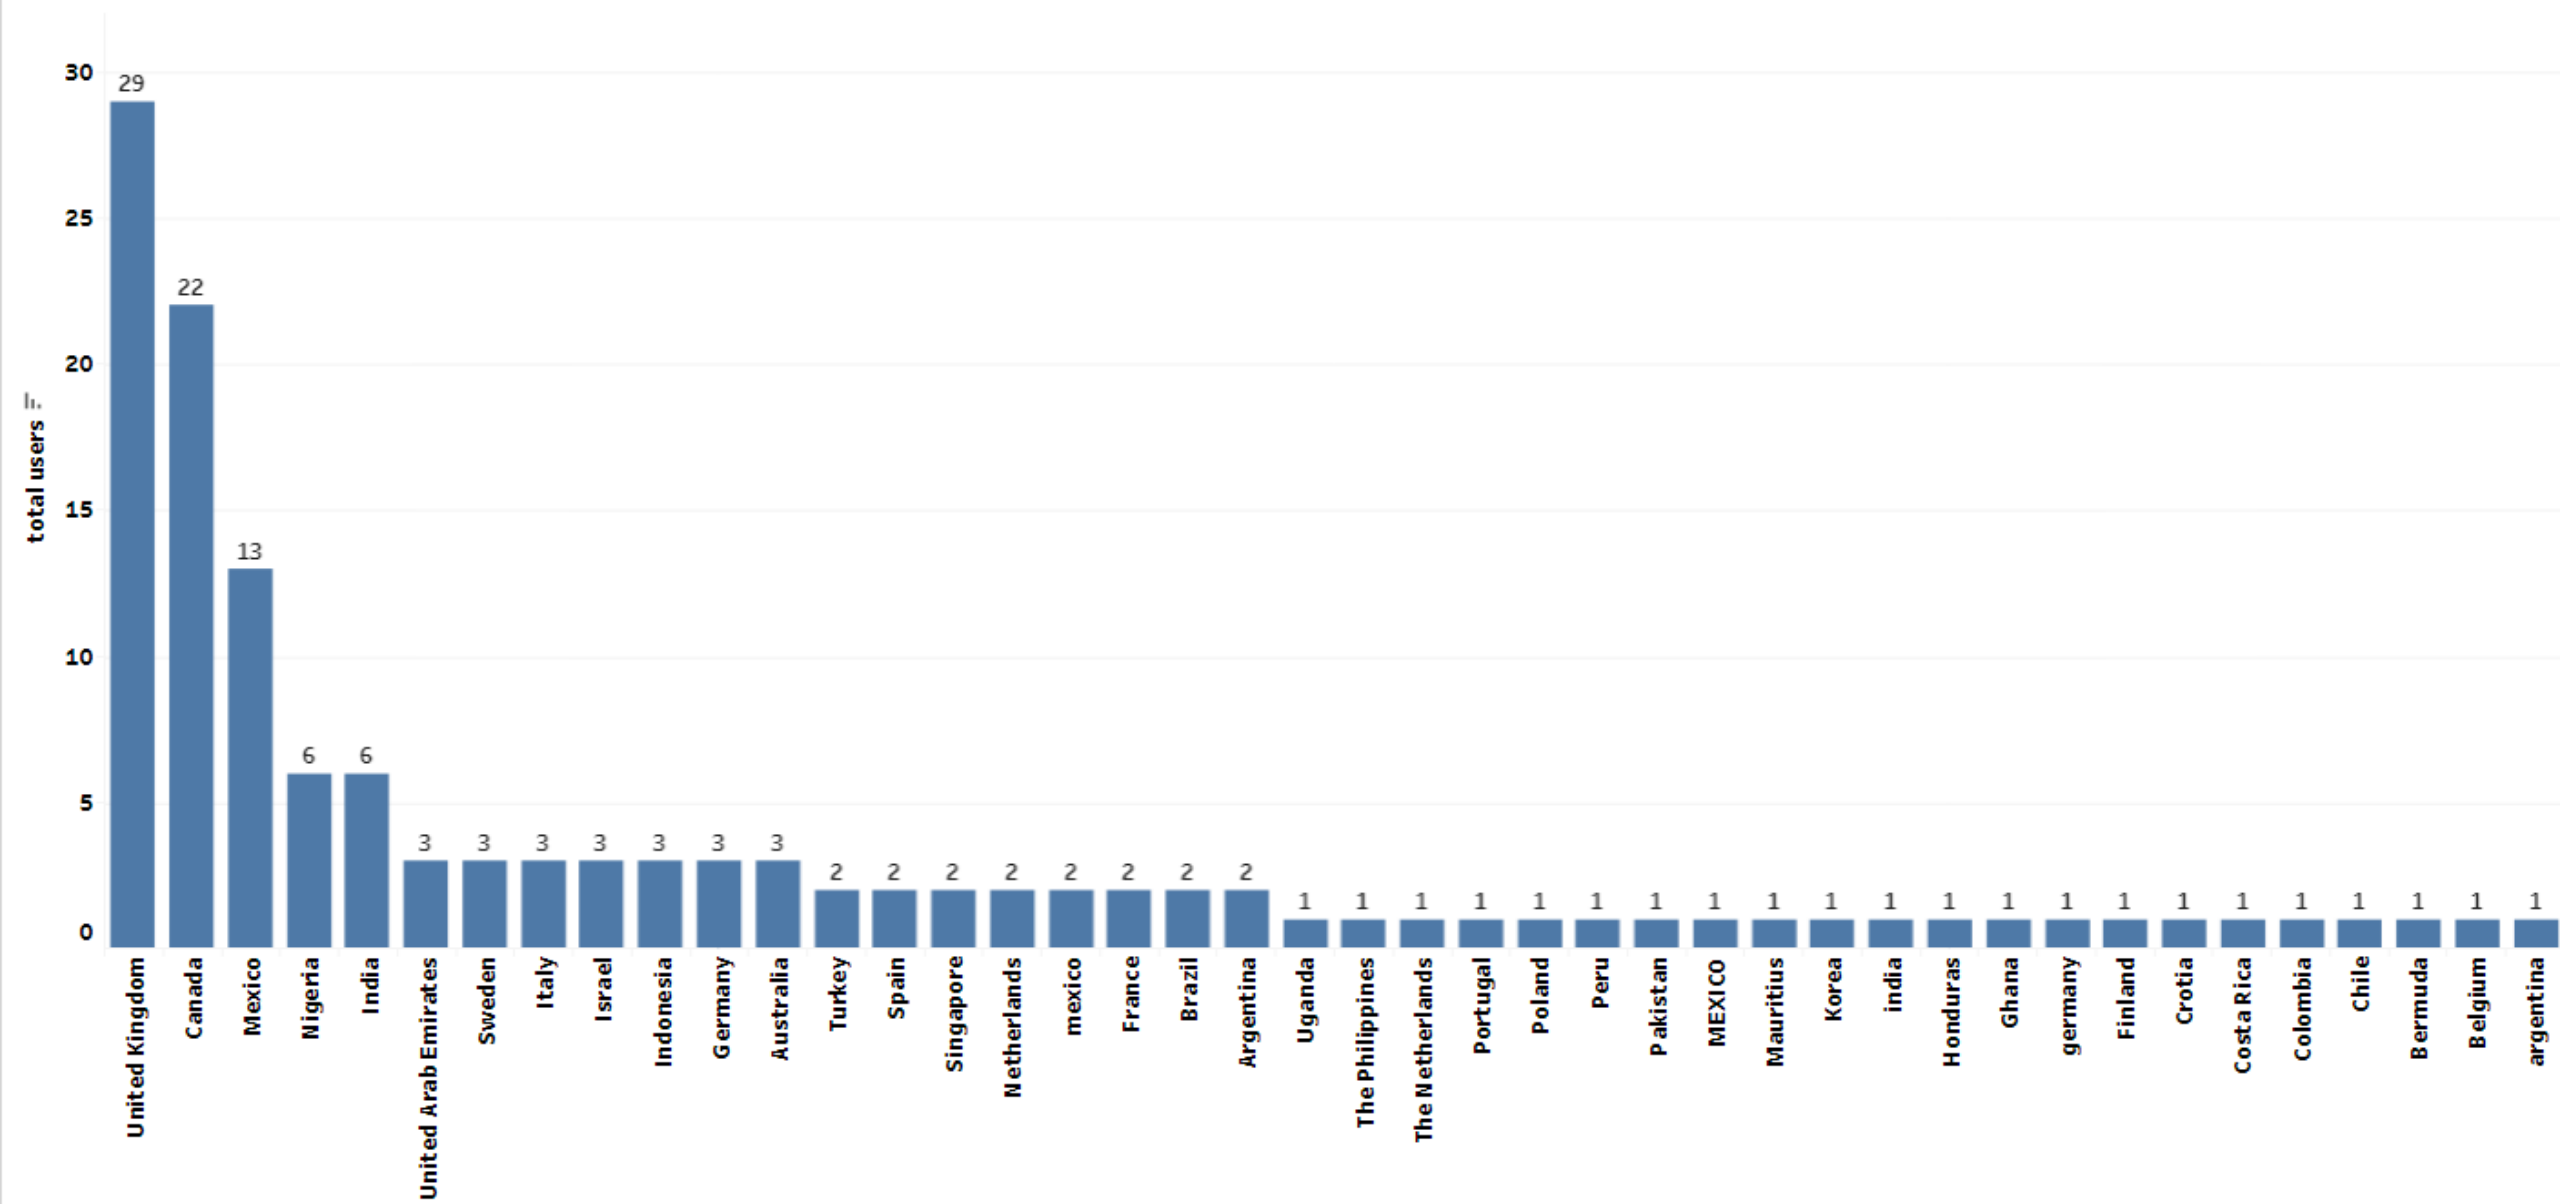

world users

Now if we look at the rest of the world, we could see that we have a lot less users than in the USA with a total of 135 users which is approximately 16% of the users who answered the survey.

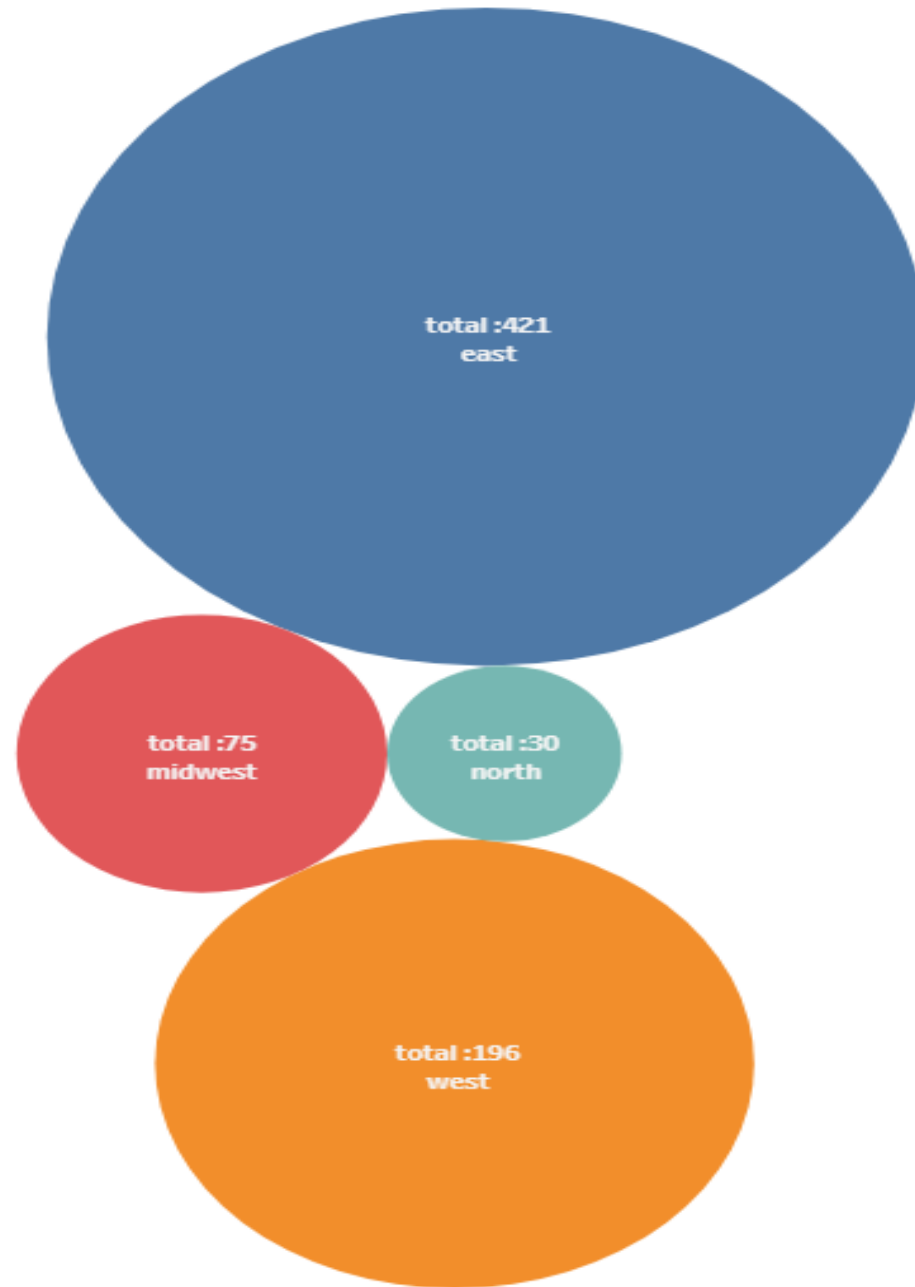

If we dig a bit deeper, we can determine that most of our users come from the UK, Canada and Mexico (a total of 64 users).

rest of the world users

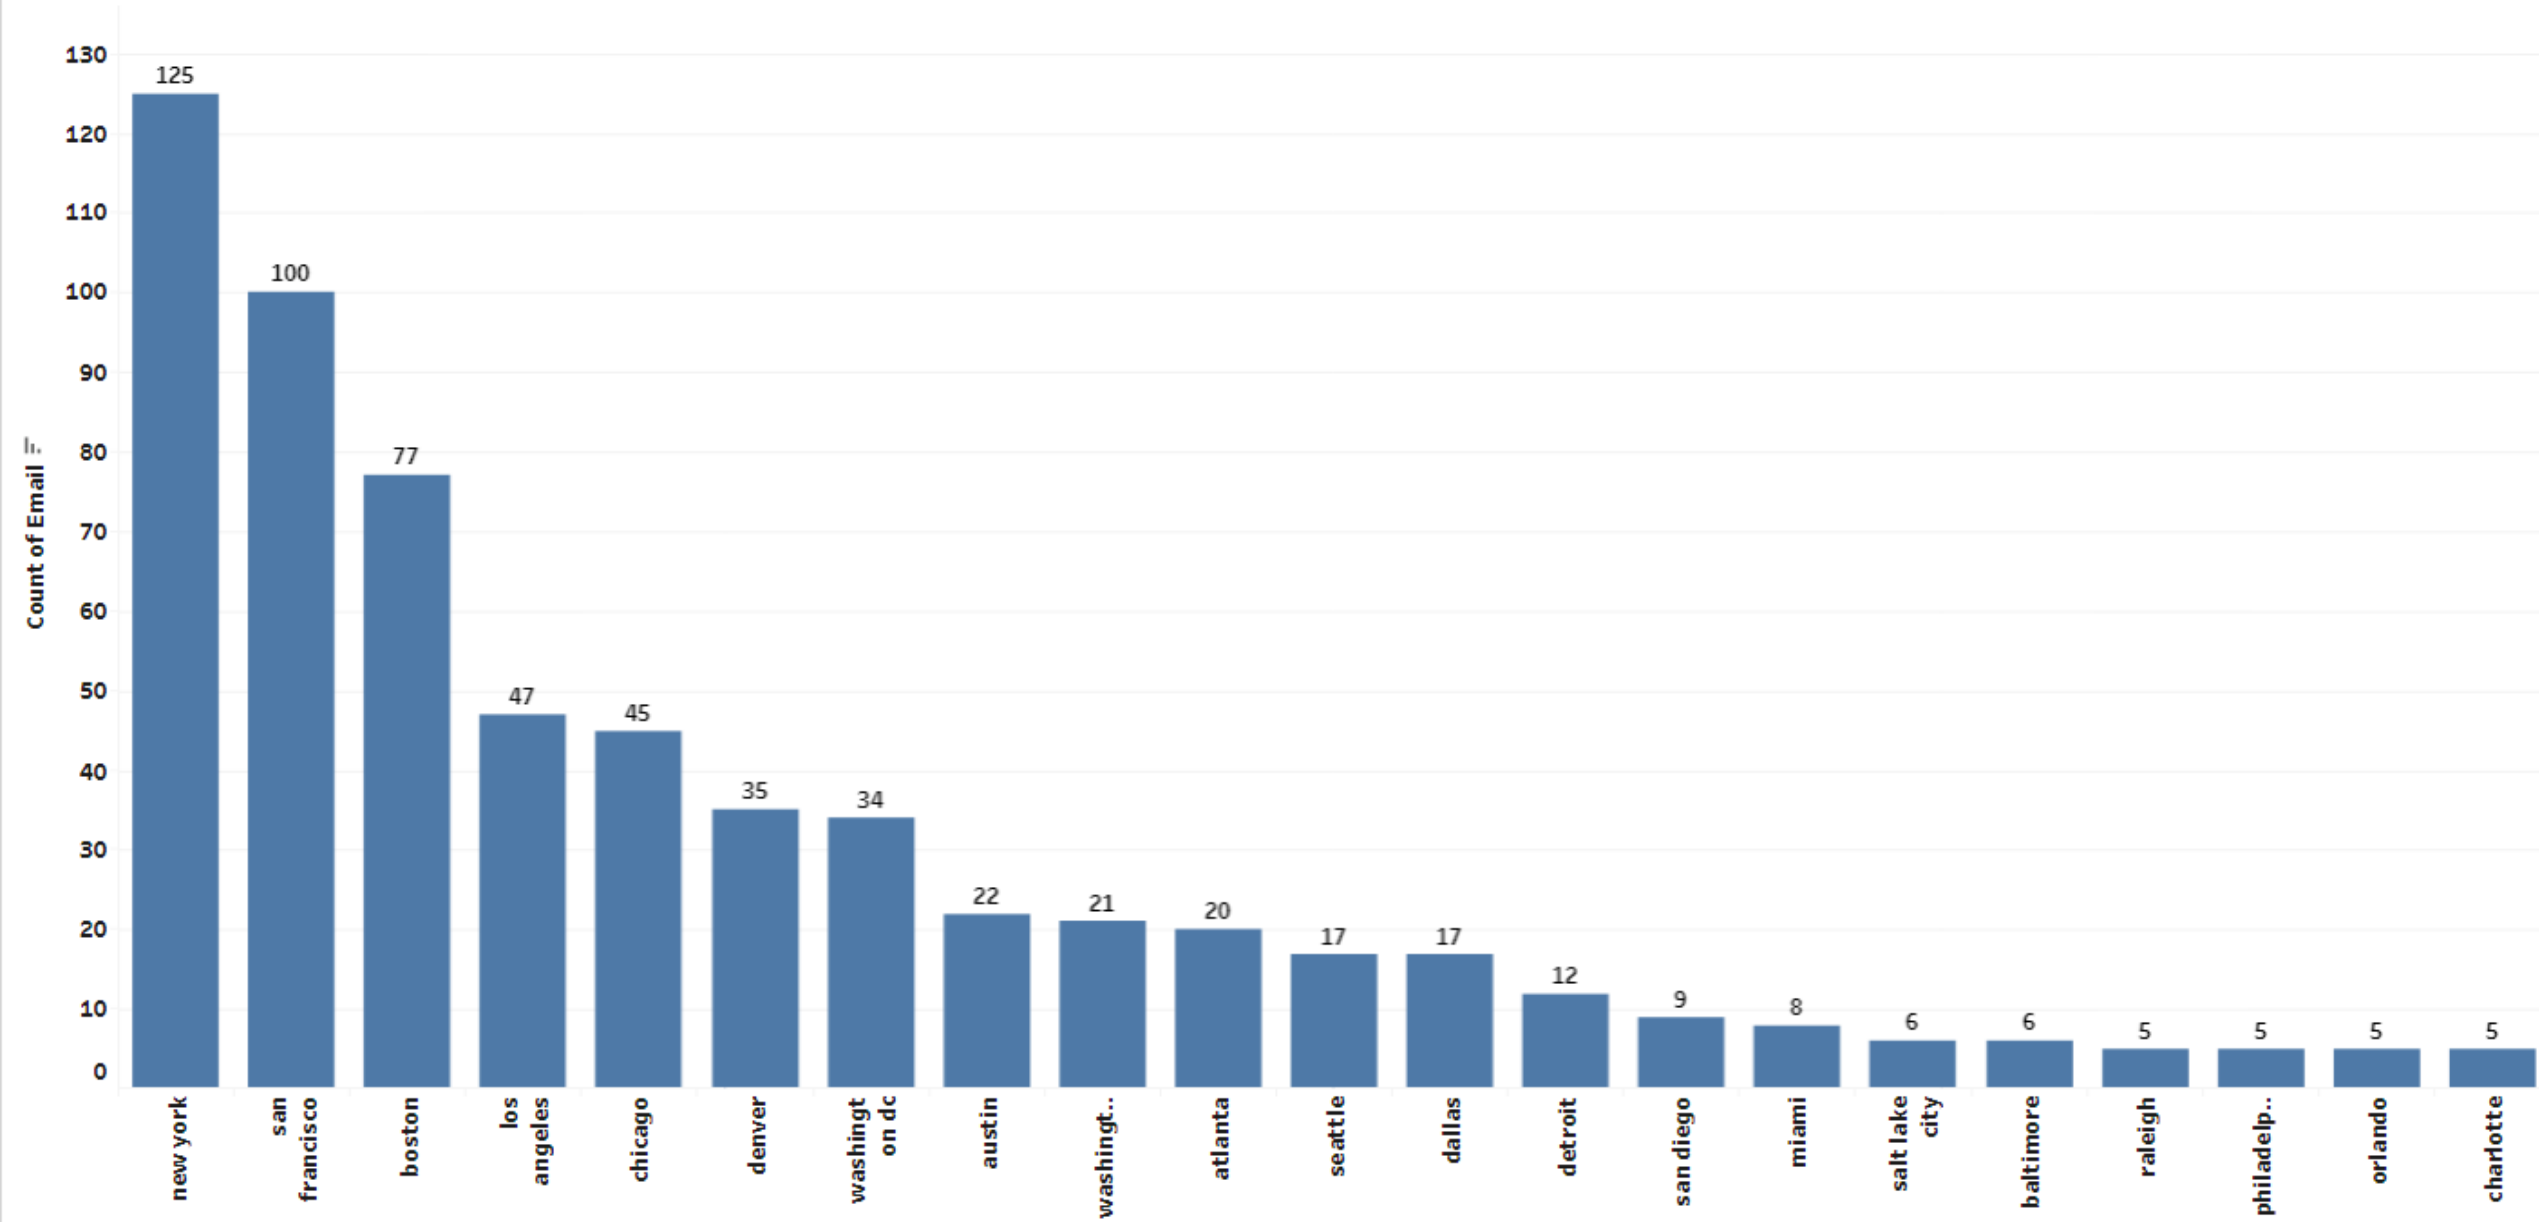

Usa users

- As we saw earlier most of our users are from the USA (722) which is approximately 84% of our users.
- Now if we dig a bit deeper, we can see that most of our users in the USA come from the east and west of USA (totaling 617) and specifically the cities :
- new York city , San Francisco and Boston (a total of 302) .

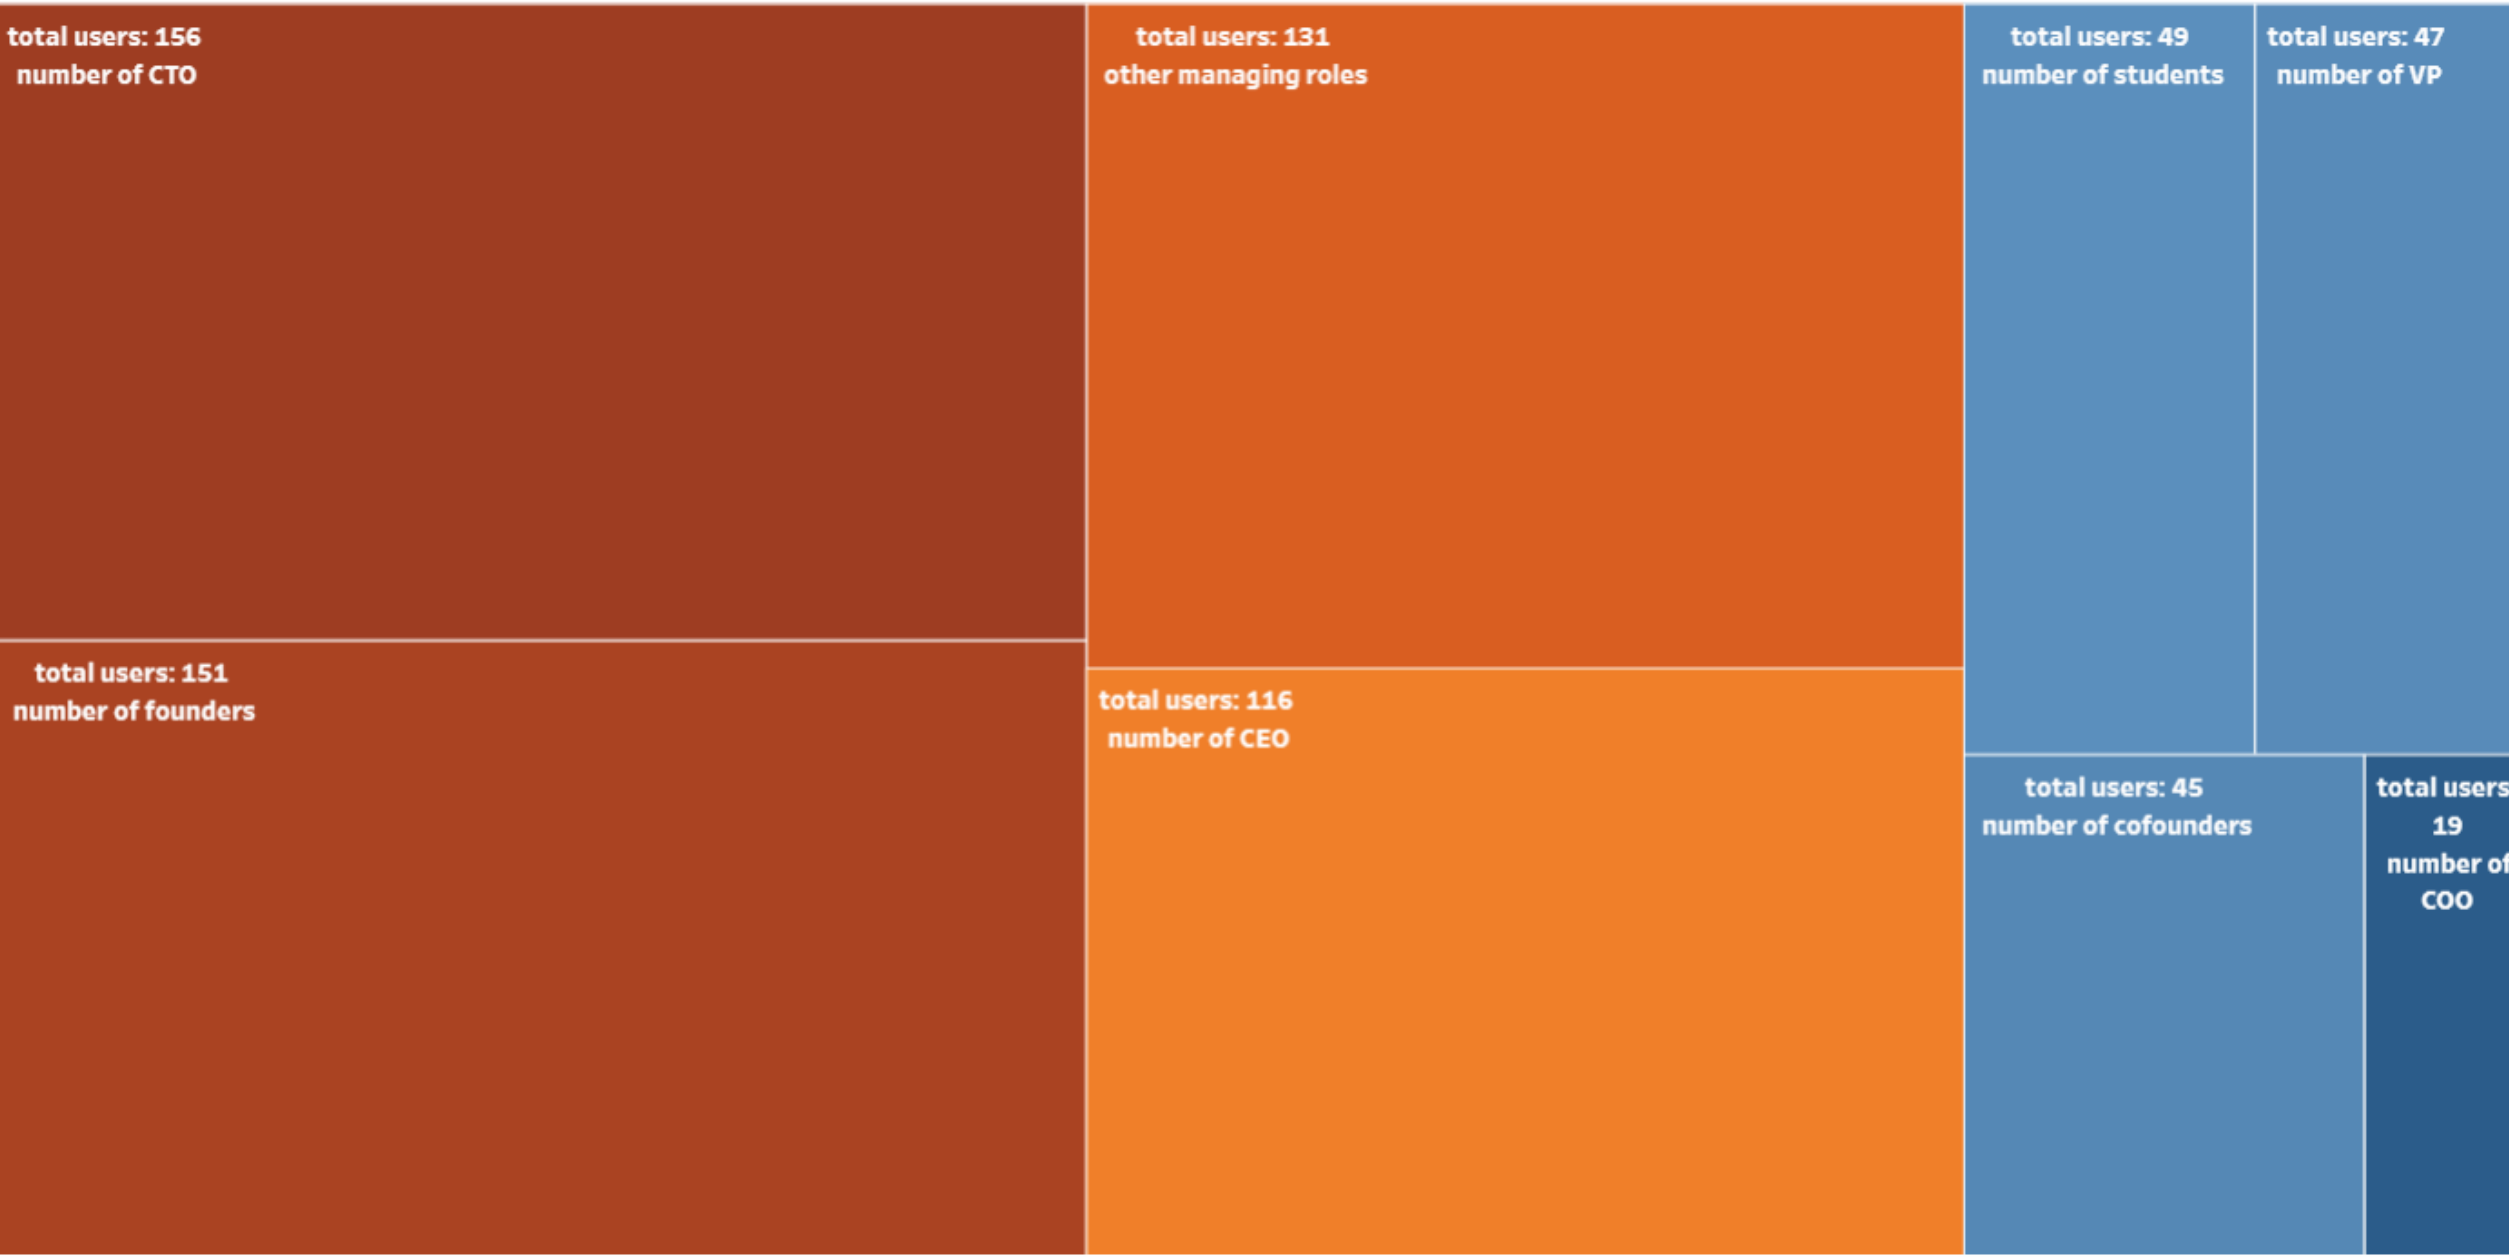

USA users

Roles

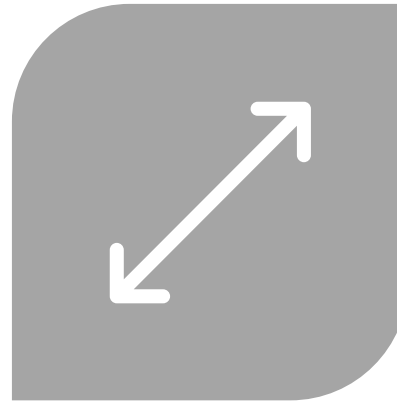

- In terms of managing roles there are a total of 7 roles that are most common in the data and they are : CTOs, founders/cofounders, CEOs, students, VPs and COOs. And they make up a total of 725 users while the rest of the 131 roles are made up of uncommon roles.

Challenges

TOP 3 CHALLENGES FOR NEXT YEAR

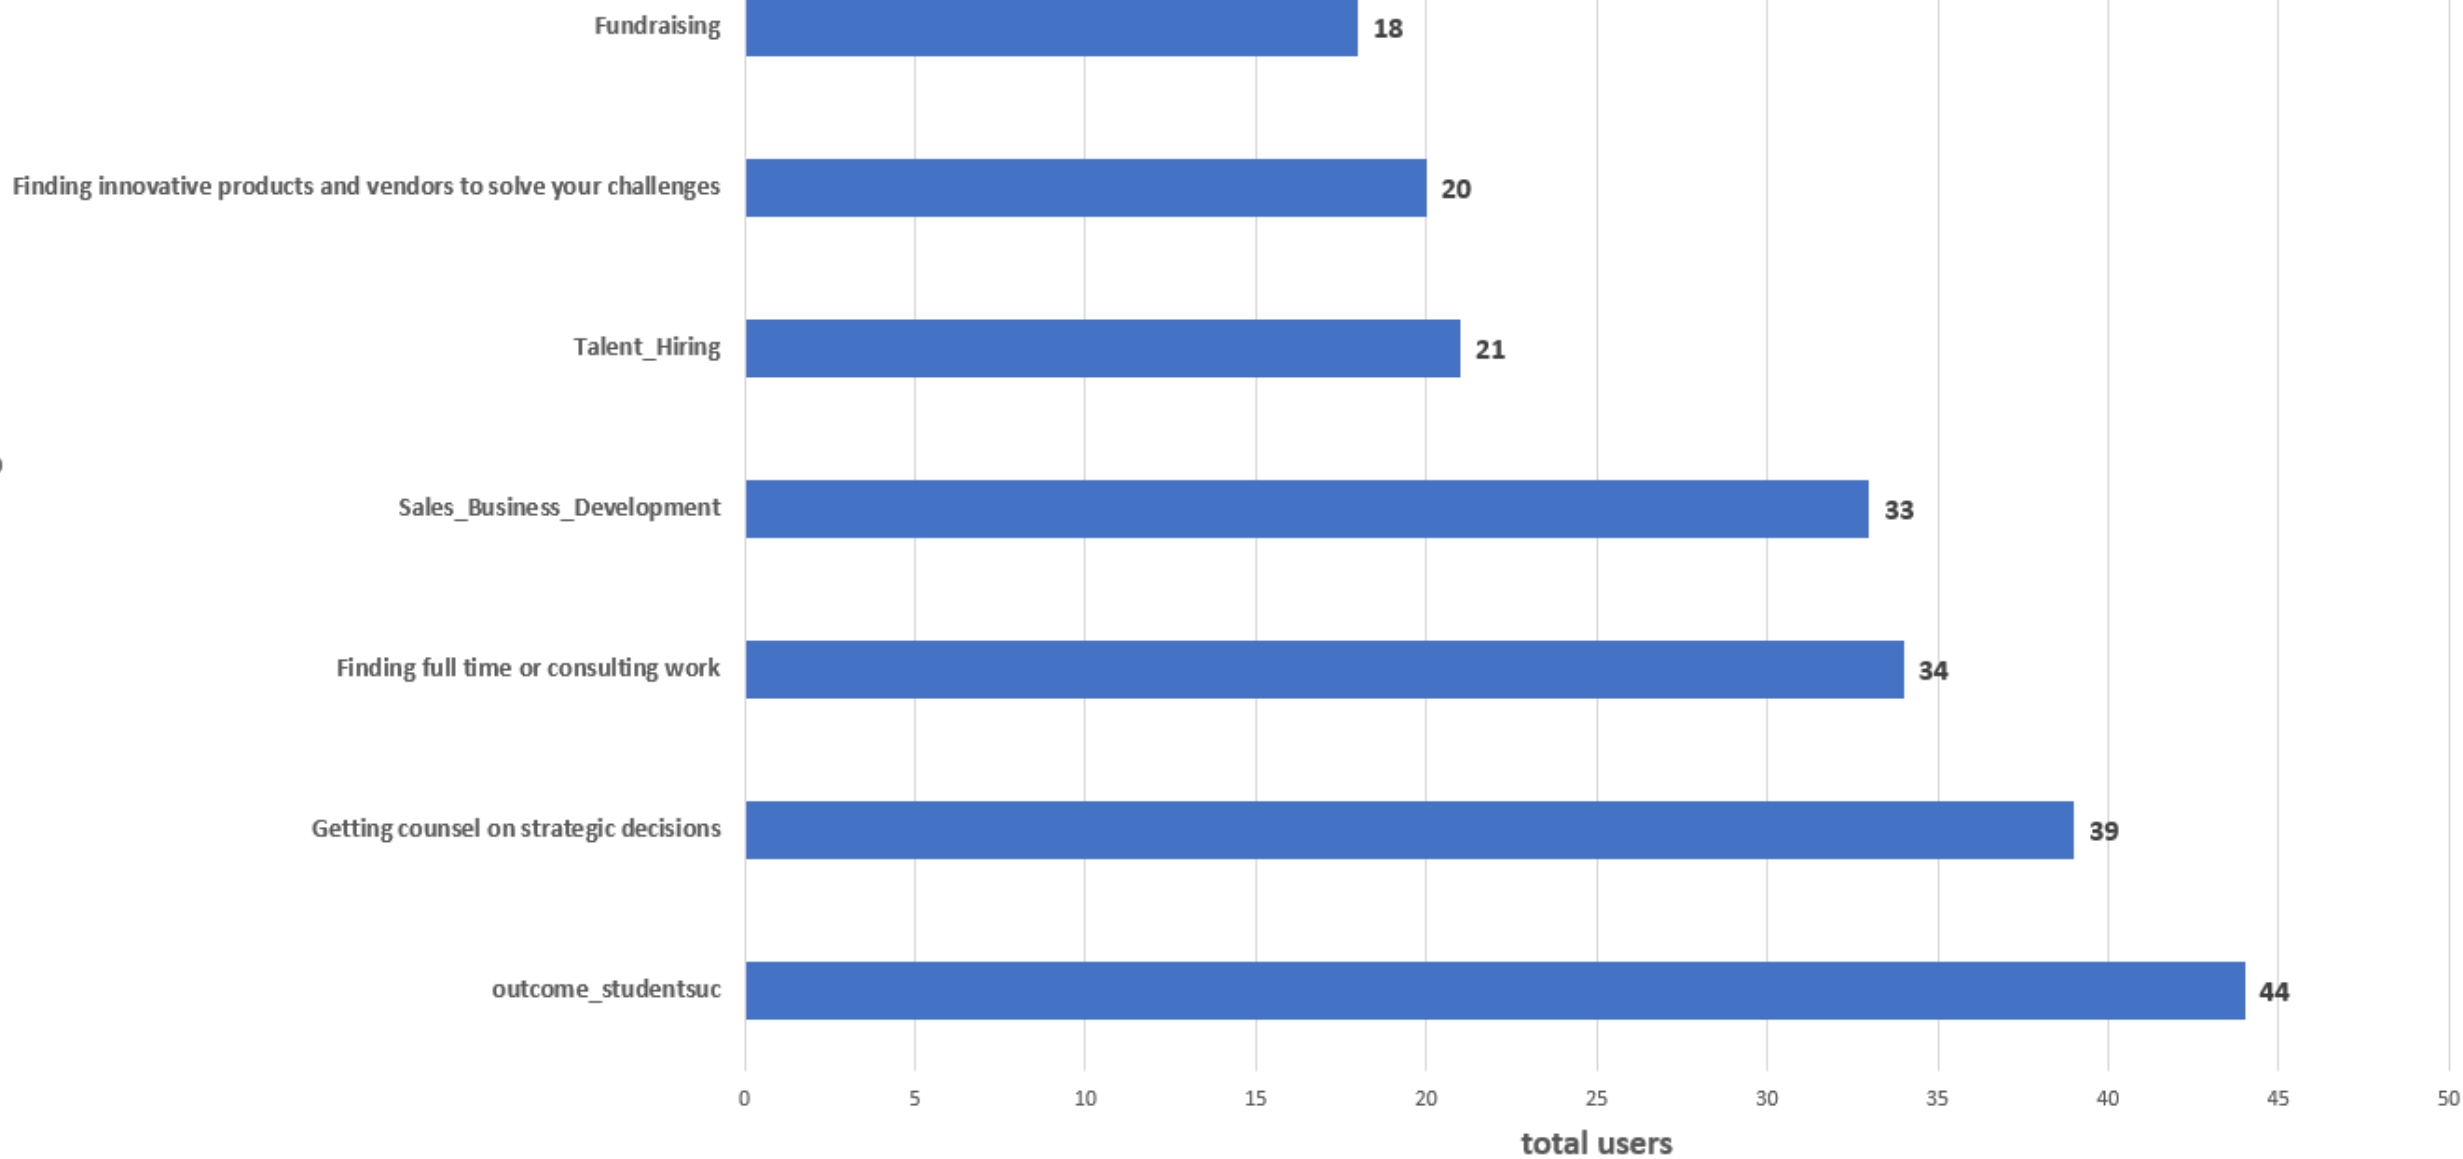

IF WE LOOK AT THE CHALLENGES THAT THE USERS WANT TO OVERCOME IN THE NEXT YEAR, WE CAN SEE THAT A TOTAL OF 84 USERS SHARED THEM.

THE MOST COMMON CHALLENGE THAT THE USERS WANT TO OVERCOME IS OUTCOME/STUDENT SUCCESS FOLLOWED COUNSELING IN STRATEGIC DECISIONS.

challenge

Are you actively engaged in work related to innovation in postsecondary ed or training, or are you a leader in traditional higher ed (e.g., Dean or VP at a university)? 13 answered NO

If not, why are you interested in joining and what can you bring to the community?

- . I'm hoping to connect with other leaders in the work and search for new and exciting roles that I can grow within! I'm hoping to bring energy and my additional network connections to benefit the community as a whole.
- . I am looking to make new connections and build my professional network for any opportunities in the future .
- . Learning and networking.
- . To learn from others, gather helpful data and meet folks.

- Wasn't quite sure if I fit the description in your previous question but I'm interested in the community because I started a recruiting firm to specifically connect mission-driven professionals with mission-driven organizations. Our clients span global health, child welfare, education in underserved communities, charitable giving, brain science, climate tech and civic tech and I'd love to be a resource for community members who might be interested in the job opportunities that we support.
